1. Comment.

The composition of the shipment indicates definitely that units of the 10th Gds Tank Div, which went from Satzborn to Lychen at the Templin training grounds on 9 April, returned on this train. According to its composition, the shipment is identical with the train which went from Satzborn to Lychen on 16 April. The train also carried units of the 10th Gds Tank Div which returned from the Templin training grounds.

50X1-HUM

2. Comment. The trains carried surplus T-34 '85 tanks which were turned in by the 10th Gds Tank Div upon arrival of T-54 tanks. In connection with this exchange program, the 6th Gds Mecz Div presumably also received T-74 '85 tanks after previous shipments had been dispatched to the 7th Gds Mecz Div and the 207th Ritz Rifle Div. Available information indicates that the 10th Gds Tank Div received approximately 100 T-54 tanks and turned in some 110 T-34 '85 tanks.

50X1-HUM

3. Comment. The shipment cannot be explained.

4. Comment. Except for the tank exchange program, the information indicates no major changes in the Kavalierie Schule in Kr. munitz.

The numbers of the supply trucks mentioned under a) belong to the 10th Gds Tank Div, those under b) to the Fourth Gds Mecz Army, those under c) to GSFG, under d) to the Air Force and under e) to the 4th Arty Div.
